

Safety Day, Fun Day, Festival, Fair, Display Request Coalition Resource List

Please contact each organization direct with your request. We do not guarantee availability or participation in your event. Each organization may have request criteria and policy guidelines to follow.

Safe Kids Charlotte Mecklenburg appreciates your interest in the Safe Kids Coalition and your request for our participation in your upcoming event. The Coalition is just that - a coalition of agencies who are interested in childhood injury prevention. Our primary focus is preventing injuries for children 18 and under by educating the public, advocating for child safety, and conducting programs in our target areas through our partners. For a "kids day," "fun day" or other type of festival or display, **we recommend you reach out to our member agencies for their support of your event.** We would be glad to provide educational materials for our members to display and distribute at your events. Car Seat checking stations are located at www.safekidscharmeck.org under the calendar. We do not provide mobile seat checks.

Want to join the list? You are welcome to attend and consider becoming a member of our coalition! The coalition meets the first Tues of each month 9am at the Health Dept on Billingsly rd.
